Art Unit: 2871

***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 8, 13-16, 22-24, 32-41 and 47-48 drawn to a liquid crystal display (LCD) device, classified in class 349, subclass 155.
  - II. Claims 2-7, 9-12, 17-21, 25-31, 42-46, 49-53 drawn to a method of manufacturing an LCD device, classified in class 430, subclass 20.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product of Group I can be made by a different method from Group II, e.g. a method of forming the liquid crystal display device without the steps of transferring spacers (e.g., forming spacer right on the surface of a liquid crystal substrate)

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2871

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
